STANDARDS

FSC-STD-20-011 (V2-0) CHAIN OF CUSTODY EVALUATIONS

Code	INT-STD-20-011_04
Requirement (s)	Clauses 2.7 and 8.4
Publication date	21 November 2013
<p>Can an on-site audit exceptionally be replaced by a desk audit if the organization is located in a country or region with an actual demonstrated security risk for the life or health of auditors?</p> <p>In the case of a demonstrated security risk for the life or health of auditors, the CB may apply for derogation from PSU to replace an on-site audit by a desk audit. The application shall include:</p> <ul style="list-style-type: none"> a) Certificate code of the company; b) Activities under the scope of the certificate (products and processes); c) Evidences of security risks confirmed through verifiable public sources (e.g. an official travel warning); d) Other additional information, as required by FSC. <p>Derogation applications will be evaluated on a case by case basis.</p>	

Code	INT-STD-20-011_12 (also published under FSC-PRO-20-001 with code INT-PRO-20-001_01)
Requirement (s)	Clause 2.7d
Publication date	11 February 2016
<p>Are CBs required to verify how the CoC certificate holder (CH) demonstrated its commitment under the Policy for Association to not be involved in illegal logging?</p> <p>CBs have to verify (audit) the CH's commitment to comply with the values of FSC as defined in the Policy for Association according to FSC-STD-40-004 V2-1 Clause 1.5.1. This needs to be done by evaluating the existence of the self-declaration signed by the CH (FSC-PRO-20-001 V1-1 Section 3).</p> <p>This is sufficient unless the CB witnesses objective evidence of non-conformance in the audit (FSC-PRO-20-001 V1-1 Section 1) or detects objective evidence of non-conformance when reviewing (evaluating) complaints, disputes or allegations of non-conformance received from stakeholders (FSC-STD-20-011-V2-0 Clause 2.7.d). This applies to any of the listed activities (see FSC-STD-40-004 V2-1 Clause 1.5.2), including illegal logging.</p>	

Code	INT-STD-20-011_13
Requirement (s)	Clause 2.7d
Publication date	11 February 2016

Does the requirement to review complaints, disputes or allegations of non-conformities received by the organization and/or the certification body entail an investigation of allegations made relating to issues which are not covered by FSC certification standards for certificate holders? Is the Policy for Association considered a “relevant standard” in the ISO 65 Clause 15?

As per FSC-STD-20-011 V2-0 Clause 2.7.d, what is involved in the “review of complaints, disputes, or allegations of non-conformities received” which the certification body is required to carry out?

1) Does the “review” as per FSC-STD-20-011-V2-0, 2.7(d), include a requirement that a CB investigates allegations made relating to the Policy for Association?

2) Should the certification body investigate allegations made relating to deficiencies in products (e.g. poor quality product, albeit certified)?

3) Is the CB required to perform independent verification of allegations by making contact with stakeholders who have submitted the allegations?

4) In the case of a Policy for Association related allegation, is a CB required to evaluate the CHs actions with respect to the allegations?

Complaints, disputes or allegations of non-conformance received from stakeholders by the certification body have to be reviewed in all cases according to FSC-STD-20-011 V2-0 Clause 2.7.d. They do however not have to be further evaluated if they are not within the scope of relevant FSC certification requirements (otherwise they would not classify as an ‘*allegation of non-conformity*’ by definition).

Complaints received by the CH have to be reviewed in all cases according to ISO 65 Clause 15. If they relate to compliance with relevant certification requirements, appropriate action must be taken by the CH and documented.

FSC-STD-40-004 V2-1 is the relevant standard for chain of custody certification in the context of ISO 65 Clause 15, including the requirements listed in Clause 1.5. Allegations of non-conformance against Clause 1.5 therefore need to be reviewed for any objective evidence. Such objective evidence for relevant non-conformities, even if provided only for operations or activities outside the scope of chain of custody certification, needs to be evaluated for indications of similar non-conformities within the scope of the certificate.

Regarding FSC-STD-20-011 V2-0 Clause 2.7.d:

#1: Yes, in so far that objective evidence of non-conformance in certain entities or parts of an associated organization could imply or indicate non-conformities in or even a breakdown of a certificate holder’s chain of custody or overall quality management system.

#2: The CB does not need to investigate allegations related to deficiencies in products (e.g. poor quality product). The CB needs to review allegations against CHs non-conformities against certification requirements.

#3: FSC-STD-20-001 V3-0 Clause 14 in combination with ISO 65 Clause 7 requires CBs to give stakeholders the opportunity to present their case to the entity reviewing the allegation.

FSC therefore considers it best practice to make contact with these stakeholders when reviewing and evaluating an allegation.

#4: ISO 65 Clause 15 requires the CB to evaluate the CH action with respect to all allegations that relate to compliance with relevant certification standards. Action taken with regards to allegations against the commitment of the CH with the Values of FSC as defined in the Policy for Association have to be investigated by the CB as they are included in a relevant certification standard, i.e. FSC-STD-40-004 V2-1 Clause 1.5.

Code	INT-STD-20-011_02
Requirement (s)	Clause 2.7e
Publication date	23 April 2013

Is it acceptable to audit loggers through desk audit when the logger does not have a log yard to visit?

Yes. The desk audit is applicable to loggers holding a FSC Chain of Custody certificate and that do not have a log yard. The desk audit shall cover all applicable standard requirements of FSC-STD-40-004 V2-1, except the ones that only apply to COC certificates with physical possession of products, namely Clauses 2.2, 3.4, 5.1, Part II (8 Percentage System, 9 Credit System) and Part IV. Evaluation against the standard requirements related to labeling of products are only required when the FSC label is used by the logger.

Code	INT-STD-20-011_09 (also published under FSC-STD-20-007 with code INT-STD-20-007_25)
Requirement (s)	Clause 4.3.2
Publication date	19 May 2014

When a nonconformity is to be graded by the Certification Body, shall the attribute 'repeated' ('recurring') be applied at the level of a 5-year certification cycle or at the level of the full lifetime of a certificate?

'Repeated' means that the same root cause that already resulted in a minor nonconformity in a previous audit has been re-detected as a reason for a nonconformity in a following audit within the same 5-year certification period/cycle. This is usually indicated by a nonconformity with the same indicator / requirement than in a previous audit.

Code	INT-STD-20-011_05 (also published under FSC-STD-20-007 with code INT-STD-20-007_24)
Requirement (s)	Clause 4.5
Publication date	20 February 2014

According to a PSU interpretation, surveillance evaluations shall take place at least once per calendar year for FM audits and at least once per calendar year, but not later than 15 months after the last audit for CoC audits.

However, FSC-STD-20-007 and FSC-STD-20-011 require minor non-conformities in FM and CoC to be fully corrected within one year (under exceptional circumstances

within two years in CoC).

If there are outstanding minor non-conformities to be evaluated, shall a surveillance evaluation take place within the next 12 months to have the CAR closed?

If an onsite surveillance evaluation is required to confirm the correction of the outstanding minor non-conformity, the audit shall take place within the 12 month period.

If an outstanding minor non-conformity can be closed by evidence not requiring an onsite evaluation, the normal audit timelines can be followed.

Code	INT-STD-20-011_01
Requirement (s)	Clauses 4.5 and 4.6
Publication date	15 April 2011
When does the given timeline commence for correction of non-conformities?	
The given timeline commences from the moment when the corrective action request is either formally accepted by or formally presented to the certificate holder (whichever happens first).	

Code	INT-STD-20-011_08 (also published in FSC-PRO-20-003 with code INT-PRO-20-003_02)
Requirement (s)	Clause 4.6
Publication date	19 May 2014
How does the status of open minor nonconformities not evaluated within the 12 months timeframe affect the ability to transfer certificates to a new certification body?	
Minor nonconformities not evaluated by the preceding certification body within the required 12-months timeframe do not automatically upgrade to majors. The certificate may still be transferred to the succeeding certification body but the pending minor nonconformities shall be evaluated in the transfer audit and then be upgraded if not closed.	

Code	INT-STD-20-011_10
Requirement (s)	Clause 5.11
Publication date	13 January 2015
For a company to source Controlled Wood in areas that have been designated as 'unspecified risk' in a National Risk Assessment or risk assessment by a company, it must include the relevant Forest Management Units (FMUs) in its company verification program according to Annex 3 of FSC-STD-40-005 V2-1. FSC-accredited Certification Bodies are then required to conduct field verification to audit the performance of the company verification program.	
If an area is designated as 'unspecified risk' for risk assessment indicator 1.4 (relating to the perception of corruption), how would field verification by the FSC-accredited Certification Body check whether an FMU or supplier has been controlled	

for this indicator, and, would field verification be required when an area is designated as unspecified risk only for this indicator?

Unspecified risk designations are relevant for the whole Controlled Wood category and not only for particular indicators. Requirements for the verification of unspecified risk areas as outlined in Annex 3 of FSC-STD-40-005 and in ADVICE-40-005-19 are relevant for Controlled Wood categories and do not contain indicators relevant for risk assessment. Therefore, the Certification Body's evaluation of verification programs in unspecified risk areas shall not focus on assessing conformance against risk assessment indicators and shall follow the relevant normative requirements.

Code	INT-STD-20-011_07
Requirement (s)	Clause 5.11
Publication date	13 May 2014

Is a certification body required to conduct consultation with stakeholders while evaluating company compliance to Annex 3 of FSC-STD-40-005 FSC standard for company evaluation of controlled wood?

No, a certification body is not required to conduct consultation with stakeholders while evaluating company compliance to Annex 3 of FSC-STD-40-005. The company is required to conduct stakeholder consultation for relevant Categories of controlled wood and the certification body shall verify the company's compliance with standard requirements.

Code	INT-STD-20-011_06
Requirement (s)	Clause 5.12
Publication date	11 April 2014

FSC-STD-40-005, Annex 3 sets the minimum sampling rate for certificate holders to apply when selecting FMUs for their Annex 3 controlled wood supplier verification program. FSC-STD-20-011 defines the equation that CBs are required to use when selecting from FMUs included in the supplier verification program.

In cases where the certificate holder voluntarily decides to include a higher number of FMUs for field visits than is required by FSC-STD-40-005; is it acceptable for the CB to calculate their sample size on the minimum number required rather than the actual number of FMUs visited by the certificate holder?

For example, certificate holder is required to include 35 FMUs, but they select to increase their sample size to 60. Is the CB required to sample 5 FMUs ($0.8 * \sqrt{35}$) or 7 FMUs ($0/8 * \sqrt{60}$)?

FSC does not want to discourage certificate holders from electing to sample CW suppliers at higher rates.

It is acceptable for the CB to base their sample size on the minimum number required to be included in the supplier field visits as per FSC-STD-40-005, Annex 3, 1.8., provided the CB has analyzed the reason(s) for extending the sampling rate by the certificate holder and the

CB has come to the conclusion that the minimum sampling rate is sufficient to verify unspecified risk in the given conditions.

In the example above, the CB would calculate their minimum sample size to be 5 FMUs.

Code	INT-STD-20-011_11
Requirement (s)	Clause 7.1
Publication date	05 October 2015

FSC-STD-40-007 V2-0 Clause 4.1 sets out the sampling rate for organizations to apply when performing on-site audits of their suppliers included in their Supplier Audit Program. FSC-STD-20-011 V2-0 Clause 7.1 then defines the calculation for CBs to apply when selecting from those audited suppliers.

In cases where the organization voluntarily decides to conduct a higher number of on-site audits of their suppliers than required, is it acceptable for the CB to calculate their sample size on the minimum number required rather than the actual number of suppliers visited by the organization?

FSC does not want to discourage organizations from electing to sample suppliers at higher rates.

It is acceptable for the CB to base their sample size on the minimum number required to be included in the supplier site audits as per FSC-STD-40-007 V2-0 Clause 4.1, provided that the CB has analysed the reason(s) given by the organization for extending the sampling rate within their Supplier Audit Program and the CB has come to the conclusion that the minimum sampling rate is sufficient.

Code	INT-STD-20-011_03
Requirement (s)	Clause 8.2.f
Publication date	29 May 2013

FSC considers outsourcing across national borders to countries with Corruption Perception Index (CPI) lower than 50 as high risk activity. If a company based in China establishes an outsourcing agreement with another company situated in Hong Kong, is this situation considered as cross-border outsourcing?

Recognizing that Hong Kong is a Special Administrative Region of the People's Republic of China, FSC does not consider the outsourcing activity of a company based in Hong Kong to a company based in mainland China to be cross-board outsourcing in the context of FSC-STD-20-011 V2-0 Clause 8.2.f

FSC-STD-40-003 (V2-1) CHAIN OF CUSTODY CERTIFICATION OF MULTIPLE SITES

Code	INT-STD-40-003_01
Requirement (s)	Clause 3.1
Publication date	23 November 2011
<p>How should a CB deal with the following scenario? A Participating Site of a Group CoC certification surpassed the defined threshold and the transitional membership phase of 2 years is coming to an end. In the meantime, the FSC National Office applied for nationally adapted eligibility.</p> <p>In this scenario FSC would exceptionally allow an extension of the transitional membership phase until FSC has taken a formal decision on the proposal for nationally adapted eligibility criteria submitted by the FSC National Office.</p>	

Code	INT-STD-40-003_02
Requirement (s)	Clause 5.2.4
Publication date	13 February 2015
<p>According to Clause 5.2.4, for certificates with more than 20 Participating Sites and where the Participating Sites are not linked through common ownership, the Central Office's auditors shall be in possession of a formal ISO 9001, ISO 14001 or OHSAS 18001 lead auditor certificate achieved through a recognized accredited training course. Is there an alternative solution for the qualification of Central Office's auditors?</p> <p>Yes, training provided by FSC-accredited certification bodies or training organizations recognized by FSC satisfies the requirements of Clause 5.2.4 alternatively, provided the following conditions are met:</p> <ul style="list-style-type: none"> • The training includes an equivalent of a 3-days ISO 19011 training course (incl. exam) provided by a formally qualified QMS, EMS or OHSAS lead auditor. • If the training is provided by an FSC-accredited certification body through an in-house trainer: <ul style="list-style-type: none"> - The training course agenda and course material needs to be approved by ASI in advance. - ASI must be given the right to witness the implementation of trainings at its sole discretion. <p>NOTE: The certification body should carefully consider and address potential conflicts of interest.</p>	

FSC-STD-40-004 (V2-1) FSC STANDARD FOR CHAIN OF CUSTODY CERTIFICATION

Code	INT-STD-40-004_20
Requirement (s)	Scope
Publication date	13 February 2015
<p>Is it allowed to classify wood-based resin adhesives and lignin sulfonate used for sizing in paper production as “neutral”?</p> <p>Yes, until FSC has developed an approach to verify this type of NTFP material it is acceptable to classify such material as “neutral”.</p> <p>NOTE: “Neutral” means that this material is exempt from Chain of Custody control requirements.</p>	

Code	INT-STD-40-004_21
Requirement (s)	Definition FSC claim
Publication date	10 June 2015
<p>Do FSC claims need to be spelled in sales documents as they are spelled in the COC standard FSC-STD-40-004?</p> <p>The standard is not prescriptive about how the FSC claims should be spelled in sales documents. Therefore, only the 'FSC' acronym needs to be written in capital letters in FSC claims. The certified content specification (e.g. 100%, Mix Credit, Recycled 85%) may be spelled in lower case and/ or upper case (e.g. both FSC Mix Credit and FSC MIX CREDIT).</p>	

Code	INT-STD-40-004_19 (also published under FSC-STD-40-006 with code INT-STD-40-006_04)
Requirement (s)	Section E
Publication date	05 September 2014
<p>Do the terms FSC-pure and FSC-mixed still apply?</p> <p>No, the terminology for claims was updated in FSC-STD-40-004 V2-1. FSC-pure is now referred to as FSC 100%; FSC-mixed as FSC Mix.</p>	

Code	INT-STD-40-004_02
Requirement (s)	N/A
Publication date	01 February 2011
<p>Can an industry use old coconut palm trees from plantations as recycled wood?</p> <p>Coconut fibre is not considered as wood since it is a palm-derived material, despite of its similar commercial and functional properties compared to material from trees. This conclusion is based on the botanical definition that wood is an organic material produced by Dicots species and palms pertain to Monocots group of plants. FSC considers this material as a non-timber forest product where it originates from forests and as non-forest based material where it originates otherwise. The certification of coconut fibre would be possible in case that the material is produced in a forest based system (native forest or plantations). Therefore, palms produced from other land use systems are not subject to FSC certification and their material can be included in FSC certified products as non-forest based material. Also, this material is not eligible to be certified as FSC Recycled, since FSC considers the use of this material as a primary use of the palm trunks and, to be post-consumer reclaimed, it should be necessarily reclaimed from consumers.</p>	

Code	INT-STD-40-004_27
Requirement (s)	Clause 1.4.2
Publication date	24 July 2015
<p>Are organizations required to keep records of both supplier invoices and delivery documents (where available)?</p> <p>Organizations need to keep sales documents as key records (documents showing the transfer of ownership). Where available, these shall be the invoices. It is not required to keep multiple sales documents of the same transaction. Legal obligations for record keeping remain unaffected.</p>	

Code	INT-STD-40-004_23
Requirement (s)	Clause 2.1.1
Publication date	24 July 2015
<p>Can a COC certificate holder establish a product group list that includes products that are not eligible to be sold with an FSC claim?</p> <p>No, Clause 2.1.1 of FSC-STD-40-004 V2-1 specifies that organizations shall establish product groups for the products that will be sold with FSC claims. Therefore, FSC product groups shall only include products that are eligible to be sold with FSC claims.</p>	

Code	INT-STD-40-004_05
Requirement (s)	Clause 2.1.2b
Publication date	15 April 2011
<p>Is it acceptable to switch between credit and percentage control systems in a product group? For example, an organization uses the percentage system, but when the end of the claim period comes, they have not obtained enough input volume to reach the labelling threshold of 70%. Then they switch to the credit system and sell a volume of FSC Mixed Credit material equal to the Mixed XX% calculation.</p> <p>No, the organization cannot have two systems of control for the same product group and switch from one to another ad libitum. In a situation where the organization cannot reach the minimum threshold for labelling, the products can still be claimed as FSC certified on invoices informing the applicable FSC percentage (e.g. FSC Mixed 45%), but the FSC label shall not be applied.</p> <p>However, an organization may decide to permanently switch from one control system to another by defining a new product group. In this case the following shall apply regarding remaining eligible material:</p> <ol style="list-style-type: none"> 1. from the percentage to the credit system: the organization may enter in its credit account an input equivalent to the volume of FSC Mixed x% output resulting from the last claim period or job order that was not sold under the percentage system. 2. from credit to percentage system: the remaining credits from the credit account cannot be used as input for the percentage system. 	

Code	INT-STD-40-004_09
Requirement (s)	Clause 2.1.3
Publication date	18 April 2011
<p>Is it acceptable to define credit system product groups by FSC claim and product type only, with no regard to input characteristics? For example, a door manufacturer produces the following door types:</p> <p>a) Solid wood door – sawn material components, dowels as minor components b) Sandwich door Type 1 – sawn material components, veneer, skins, chip board c) Sandwich door Type 2 – sawn material components, veneer, fiber board, chip board, honey comb</p> <p>Could they define one product group (FSC Mixed Credit doors) and use one credit account for all of these door types?</p> <p>No, product groups under the credit system shall share similar input and output characteristics, in terms of quality and conversion factor, as defined in FSC-STD-40-004 Clause 2.1.3 and “Terms and Definitions”. The term “quality” represents characteristics in terms of species, composition/ specifications or value of the materials. It means that products that contain inputs of different quality (e.g. sawn wood and fiber board) and/or with different conversion factors (e.g. solid wood and sandwich door) cannot be combined in the same product group. Credits from materials of a certain quality (e.g. chip board) cannot be transferred to materials of different quality (e.g. veneer). Thus, the credit system is not applicable for the production of products composed by materials of different “qualities”, unless the organization establishes separate credit accounts for each input material.</p>	

Code	INT-STD-40-004_10
Requirement (s)	Clause 3.1.2
Publication date	15 August 2011
<p>Is PEFC certified material eligible to be used in FSC product groups as FSC certified or FSC Controlled Wood?</p> <p>No. Material certified by the Program for Endorsement of Forest Certification (PEFC) is not accepted as FSC certified input and does not automatically meet the requirements of the FSC Controlled Wood standards. Therefore PEFC certified material classifies as non-FSC certified input and must comply with FSC Controlled Wood standards before its use in FSC product groups.</p>	

Code	INT-STD-40-004_26
Requirement (s)	Clause 4.1
Publication date	05 October 2015
<p>Can a product that is invoiced simultaneously containing FSC claims and claims of another forestry certification scheme (such as PEFC or SFI) be considered as FSC certified input by the buyer?</p> <p>Yes. However, in the case the buyer is certified against FSC and another forestry certification scheme, the buyer shall provide its FSC Certification Body access to both production and certification controls (access to both FSC and e.g. PEFC or SFI credit accounts) for verification that the volumes received are not being double counted. This requirement also applies in cases where the FSC accredited Certification Body is not accredited for certification against the other forestry certification scheme.</p> <p>Amended on 05.10.2015; First published on 06.08.2012</p>	

Code	INT-STD-40-004_18
Requirement (s)	Clauses 4.1.1; 6.1.1; 6.1.2
Publication date	19 May 2014
<p>Where non-certified organizations that are not required to be certified are involved in issuing sales or delivery documents (e.g. transporting companies, sub-contractors, 'del credere' agents), is it acceptable that only the invoice or the delivery document is used to identify inputs and outputs sold with FSC claims?</p> <p>Yes, non-certified organizations shall not use the certification code of certified organizations in their own documents. In these exceptional cases it is sufficient that only the sales or delivery document issued by the certified organization contains all information as specified in Clause 6.1.1 and is used to identify inputs and outputs sold with FSC claims. The document issued by the non-certified organization shall contain sufficient information to link the sale and related delivery documentation to each other.</p>	

Code	INT-STD-40-004_14 (also published under FSC-STD-20-007 with code INT-STD-20-007_11)
Requirement (s)	Clause 5.2
Publication date	06 February 2012

We are aware that where a main assessment had been carried out for a CoC certificate, the client may, after the certificate had been issued, sell the certified timber products that were in stock at the time of the main assessment, as certified. My first question relates to the CoC aspect of this, i.e. does this also mean the client may sell all certified timber products purchased between the time of the main assessment and the date the certificate is issued, as certified, after the certificate had been issued?

This brings me to the FM situation, i.e. would this same rule apply for FM certification? If the rule does apply, does this mean that any standing stock that is felled in the period between the main evaluation and the date the certificate is issued, may then be sold as certified after the certificate had been issued?

The answer to the first question is Yes, according to FSC-STD-40-004 V2-1, which states:

Organizations in the certification process may use towards their input calculations material held in their stock at the time of the main assessment as well as material received between the date of the main assessment and the issue date of the organization's FSC Chain of Custody certificate. However, the organization may not sell any material with FSC claims prior to holding an FSC Chain of Custody certificate.

The answer to the second question is also Yes, with the conditions specified in FSC-STD-20-007:

In the case of joint Forest Management and Chain of Custody certification, timber that had been felled prior to the issue of a certificate, but which has not yet been sold by the forest management enterprise may be sold as certified if it was felled in the same calendar year or harvesting period and if the main evaluation did not reveal any major nonconformity.

Code	INT-STD-40-004_24
Requirement (s)	Clause 6.1.1
Publication date	24 July 2015

Is an organization allowed to include the FSC Chain of Custody code of its supplier on the invoice, in addition to its own code?

Yes, but it must be clear which code belongs to the organization issuing the invoice and which is the suppliers' code.

Code	INT-STD-40-004_17
Requirement (s)	Clause 6.1.1
Publication date	19 May 2014
<p>Are certified or non-certified subcontractors allowed to include the certificate code of the contracting certified organization in their own sales and delivery documentation?</p> <p>No, organizations can only use their own certificate code in their sales and delivery documentation, not the certificate code of another certified organization.</p>	

Code	INT-STD-40-004_16
Requirement (s)	Clause 6.1.1
Publication date	23 April 2013
<p>Is the FSC Mix 100% claim allowed?</p> <p>Yes, the FSC Mix 100% claim is allowed on sales and delivery documents only. Although the FSC Mix 100% claim is accepted it is recommended to use the FSC Mix Credit claim instead. For labelling of these products, the FSC Mix label shall be used.</p>	

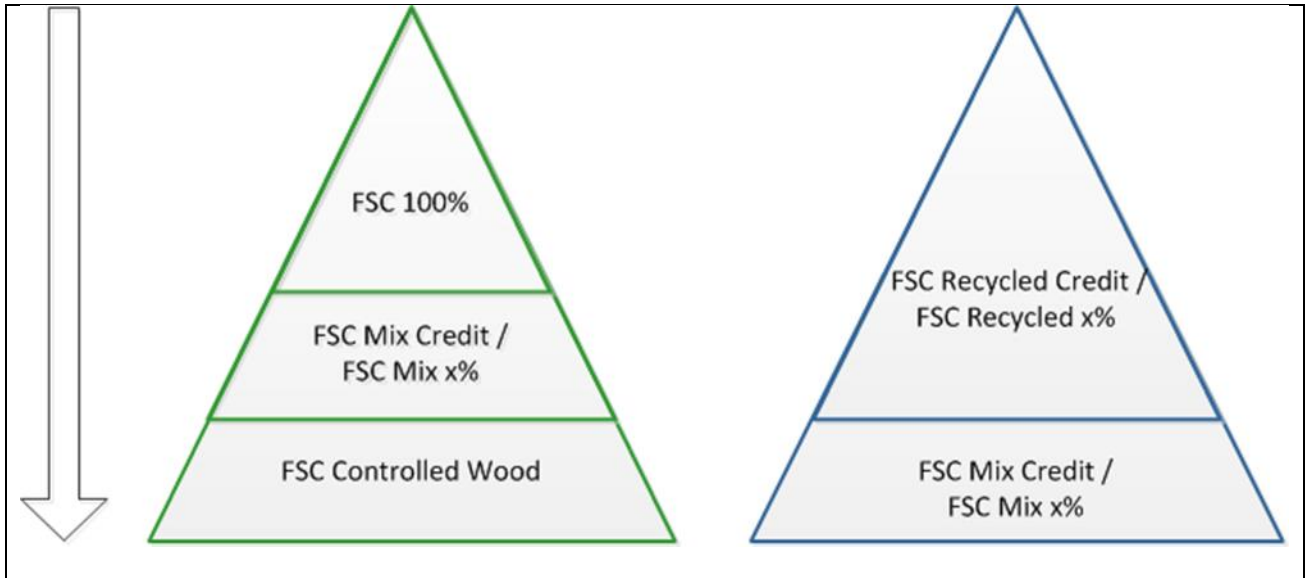

Code	INT-STD-40-004_12
Requirement (s)	6.1.1f
Publication date	05 September 2011
<p>In some countries, self-billing Invoices (SBIs) prepared by the purchaser are a substitute document for an invoice by the seller. It is acceptable that the purchaser uses the certification code of the seller in SBIs?</p> <p>Yes. As SBIs represent a long established business practice in the forestry industry and fully accepted by the tax authorities, it is acceptable that purchaser uses the certification code of the seller, or includes both the seller's and the purchaser's certification code in SBIs.</p>	

Code	INT-STD-40-004_08 (also published under FSC-DIR-40-004 with code INT-DIR-40-004_01)
Requirement (s)	Clause 6.1.1
Publication date	18 April 2011
<p>Is it acceptable that the FSC Claims are abbreviated (e.g. FSC Mix Cred) due to space constraints in invoices?</p> <p>Yes, with the condition that:</p> <p>a) The abbreviation of FSC Claims is clearly defined in the organization's documented procedures, and</p> <p>b) The complete FSC claim is provided to customers through supplementary evidence, as defined in ADVICE-40-004-05 of FSC-DIR-40-004.</p>	

Code	INT-STD-40-004_07
Requirement (s)	Clause 6.1.1
Publication date	18 April 2011
<p>In which language shall the FSC claims on sales and delivery documents be written?</p> <p>The FSC Claims on sales and delivery documents shall be written in English in the case of international sales. However, it is acceptable that the FSC Claim is translated to the other languages in the case of sales at national level (e.g. when both supplier and customer are located in the same country) or when the official language in the country of the supplier and customer is the same.</p>	

Code	INT-STD-40-004_06
Requirement (s)	Clause 6.1.1
Publication date	15 April 2011
<p>Is it acceptable that a product sold with a FSC claim also contains claims of other forestry conformity assessment schemes in its sales and delivery documents?</p> <p>Yes. The FSC Chain of Custody and Trademark standards only present restrictions for the use of the FSC label on products together with the label of other forestry conformity assessment schemes. However, these restrictions do not apply for the identification of sales and delivery documents. In this case, the FSC claims and claims of other certification schemes shall not be merged. All elements of the FSC claim must be comprehensible and easily identifiable.</p>	

Code	INT-STD-40-004_22
Requirement (s)	Clause 6.1.1g
Publication date	24 July 2015
<p>Is it possible to downgrade an FSC output claim?</p> <p>Yes, the following FSC output claims may be downgraded in any of the three systems for controlling FSC Claims (Transfer, Percentage and Credit System) as presented in the diagram below. In all cases, the FSC label shall correspond to the FSC claim made on sales documents. NOTE: FSC Recycled products cannot be downgraded to FSC Controlled Wood since they do not meet FSC Controlled Wood requirements.</p>	

Code	INT-STD-40-004_27
Requirement (s)	Clause 6.2.1
Publication date	14 December 2015
<p>Are certified retailers buying and selling finished and labelled FSC products allowed to downgrade output claims?</p> <p>Yes, retailers may do so. In such cases it is acceptable that the FSC claims on sales and delivery documentation do not correspond to the FSC claims on the labelled products.</p> <p>NOTE: This approach aims to facilitate application of the standard to retailers selling finished and labelled products to end-consumers that often only receive standardized receipts at the cash point. Clause 6.2.1 was not developed for organizations directly selling to end consumers.</p>	

Code	INT-STD-40-004_11
Requirement (s)	Clause 6.2.1 and Scope
Publication date	05 September 2011
<p>According to FSC-STD-40-004 V2-1, publishers and retailers are not required to be certified in order to resell FSC finished products, unless they perform at least one of the following activities:</p> <p>a) Pass on the FSC Claim to subsequent customers through sales and delivery documents;</p> <p>b) Apply the FSC label on-product;</p> <p>c) Process or transform FSC certified products (e.g. manufacturing, repackaging, relabeling, adding other forest-based components to the product).</p> <p>However, some companies that don't need certification are FSC certified in order to demonstrate their commitment to the FSC certification principles and values. In this context, are certified publishers and retailers required to comply with Clause 6.2.1 of</p>	

FSC-STD-40-004 V2-1 if they sell finished certified products to customers that don't need or want to receive the invoices with FSC Claims on it?

No, for certified publishers and retailers that sell finished certified products to customers that don't need or want to receive the invoices with FSC Claims on it, Clause 6.2.1 may be classified as not being applicable.

Code	INT-STD-40-004_13
Requirement (s)	Clause 9
Publication date	01 December 2011
<p>Are traders authorized to apply the credit system for trading of unfinished products?</p> <p>Traders can apply the credit system on the level of a trading office site under the following conditions:</p> <ol style="list-style-type: none"> 1) For the trade of primary products (e.g. logs, chips), and 2) Exclusive for domestic trading (at national level), and 3) There shall be a recognized third party measuring and control system of the forest products in place in order to ensure compliance with FSC product group definition (especially Clause 2.1.3), and 4) The trade of FSC certified products is always linked to a physical delivery of products. Virtual transfers of certified products are prohibited. 	

Code	INT-STD-40-004_04
Requirement (s)	Section 12
Publication date	15 April 2011
<p>Are FSC outsourcing requirements applicable in the following situation: A subcontractor runs a scaling operation (scale house), which is located on-site at the FSC certified company's property?</p> <p>No, outsourcing requirements are only applicable when the subcontractor takes physical possession of FSC certified material, off-site from a FSC certified organization. If a subcontracted activity occurs on-site at a FSC certified organization, then the activity shall be included in the certificate scope and evaluated as part of the organization's CoC audit.</p>	

Code	INT-STD-40-004_03
Requirement (s)	Clause 12.1.1
Publication date	01 February 2011
<p>A FSC pulp producer ships its finished bales of pulp to a warehouse where it sits awaiting loading into ships or rail cars. The company does not relinquish ownership and the product is not altered in any way from the time it leaves the company facility to the warehouse and then into the ship or train. Is the process of warehousing considered outsourcing?</p> <p>Storage sites should be exempt from CoC evaluations where they constitute 'stopping places' or intersections only as part of transport agreements between two Chain of Custody operations. In other words, where certain storage facilities are used (or rented) by transport service providers to fulfill a contractual agreement between two CoC certified operations, such sites should not be considered part of an outsourcing agreement. Where, however, a CoC operation contracts a transport service provider or the warehouse owner to store goods in the absence of an agreed delivery to a customer (and would then only place a delivery order at a later point in time, once a sales contract has been signed), such a scenario should be</p>	

considered an extension of the storage site of the CoC operation and justify to look at it as an outsourcing arrangement.

Code	INT-STD-40-004_01
Requirement (s)	Clause 12.1.1a
Publication date	01 February 2011

A printer outsources part of its production to a non-FSC certified contractor. Can the contractor buy FSC paper and add it to an outsourced production?

No, non-certified outsourcing contractors cannot buy and add forest-based material on their own, as per definition the contracting organization would not have ownership of all input materials. This would be different for certified contractors where they both act as contractors as well as suppliers with a purchase function on their own.

FSC-STD-40-006 (V1-0) FSC CHAIN OF CUSTODY STANDARD FOR PROJECT CERTIFICATION

Code	INT-STD-40-006_03 (also published under FSC-STD-40-007 with code INT-STD-40-007_02)
Requirement (s)	Clauses 2.3; 5.4d; 6.2; 6.3; 7.2; 8.3; 8.5; 9.1d; 9.2.
Publication date	05 September 2014
<p>Do we need to apply <i>FSC-STD-40-007 Sourcing reclaimed material for use in FSC Product Groups or FSC Certified Projects</i> when assessing reclaimed material for use under project certification?</p> <p>Yes, FSC-STD-40-007 shall be applied to purchase, verify and classify reclaimed forest-based inputs for use in FSC Certified Projects. This mainly applies to the following clauses of FSC-STD-40-006:</p> <p>2.3, 5.4d, 6.2, 6.3, 7.2, 8.3, 8.5, 9.1d, 9.2.</p>	

Code	INT-STD-40-006_01
Requirement (s)	Clause 9.2.b
Publication date	07 August 2012
<p>Are project certification applicants allowed to implement a controlled wood verification program according to FSC-STD-40-005 and source controlled materials for the project?</p> <p>Yes. Project certification applicants are allowed to implement a controlled wood verification program according to FSC-STD-40-005.</p>	

Code	INT-STD-40-006_02
Requirement (s)	Part 4
Publication date	05 September 2014
<p>Do we need to apply <i>FSC-STD-50-001 Requirements for use of the FSC trademarks by Certificate Holders</i> for project certification?</p> <p>Yes, for use of the FSC trademarks FSC-STD-50-001 shall be applied. Requirements of Annex 2 of FSC-STD-50-001 replace requirements of Part 4 of the project certification standard (FSC-STD-40-006).</p>	

Code	INT-STD-40-006_04 (also published under FSC-STD-40-004 with code INT-STD-40-004_19)
Requirement (s)	Annex 1
Publication date	05 September 2014

Do the terms FSC-pure and FSC-mixed still apply?

No, the terminology for claims was updated in FSC-STD-40-004 V2-1. FSC-pure is now referred to as FSC 100%; FSC-mixed as FSC Mix.

FSC-STD-40-007 (V2-0) SOURCING RECLAIMED MATERIAL FOR USE IN FSC PRODUCT GROUPS OR FSC CERTIFIED PROJECTS

Code	INT-STD-40-007_02 (also published under FSC-STD-40-006 with code INT-STD-40-006_03)
Requirement (s)	Scope
Publication date	05 September 2014
<p>Do we need to apply <i>FSC-STD-40-007 Sourcing reclaimed material for use in FSC Product Groups or FSC Certified Projects</i> when assessing reclaimed material for use under project certification?</p> <p>Yes, FSC-STD-40-007 shall be applied to purchase, verify and classify reclaimed forest-based inputs for use in FSC Certified Projects. This mainly applies to the following clauses of FSC-STD-40-006:</p> <p>2.3, 5.4.d), 6.2, 6.3, 7.2, 8.3, 8.5, 9.1.d), 9.2.</p>	

Code	INT-STD-40-007_01
Requirement (s)	Clause 3.5
Publication date	07 August 2012
<p>Companies that use post-consumer reclaimed material inputs may identify small amount of pre-consumer contamination in the material bundle on receipt. Does this material count as a mixture of pre- and post-consumer reclaimed material and therefore require the supplier to be included in a supplier audit program as per clause 3.5 of FSC-STD-40-007 V2-0?</p> <p>Where sporadically the buyer of post-consumer material identifies a small amount of unintentional pre-consumer contamination included in the shipment, this is not considered a mix of pre- and post-consumer reclaimed material as described in clause 3.5 of FSC-STD-40-007 V2-0. In this case, the company shall quantify the amount of pre-consumer material contamination and deduct this amount from the post-consumer volume.</p>	

PROCEDURES

FSC-PRO-20-001 (V1-1) EVALUATION OF THE ORGANIZATION'S COMMITMENT TO FSC VALUES AND OCCUPATIONAL HEALTH AND SAFETY IN THE CHAIN OF CUSTODY

Code	INT-PRO-20-001_01 (also published under FSC-STD-20-011 with code INT-STD-20-011_12)
Requirement (s)	Sections 1 and 3
Publication date	11 February 2016

Are CBs required to verify how the CoC-CH demonstrated its commitment under the Policy for Association to not be involved in illegal logging?

CBs have to verify (audit) the CH's commitment to comply with the values of FSC as defined in the Policy for Association according to FSC-STD-40-004 V2-1 Clause 1.5.1. This needs to be done by evaluating the existence of the self-declaration signed by the CH (FSC-PRO-20-001 V1-1 Section 3).

This is sufficient unless the CB witnesses objective evidence of non-conformance in the audit (FSC-PRO-20-001 V1-1 Section 1) or detects objective evidence of non-conformance when reviewing (evaluating) complaints, disputes or allegations of non-conformance received from stakeholders (FSC-STD-20-011-V2-0 Clause 2.7.d). This applies to any of the listed activities (see FSC-STD-40-004 V2-1 Clause 1.5.2), including illegal logging.

DIRECTIVES

FSC-DIR-40-004 DIRECTIVE ON CHAIN OF CUSTODY CERTIFICATION

Code	INT-DIR-40-004_05
Requirement (s)	ADVICE-40-004-03
Publication date	19 May 2014
<p>May the claim “registered” for chip and fibre components of product groups with a reduced labelling threshold of 50% be passed on along several organizations of a supply chain?</p> <p>Yes, the claim “registered” may be passed on according to the requirements of Advice 3 of ADVICE-40-004-03 together with the “registered” material / products.</p>	

Code	INT-DIR-40-004_01 (also published in FSC-STD-40-004 with code INT-STD-40-004_08)
Requirement (s)	ADVICE-40-004-05
Publication date	18 April 2011
<p>Is it acceptable that the FSC Claims are abbreviated (e.g. FSC Mix Cred) due to space constraints in invoices?</p> <p>Yes, with the condition that:</p> <ul style="list-style-type: none">a) The abbreviation of FSC Claims is clearly defined in the organization’s documented procedures, andb) The complete FSC claim is provided to customers through supplementary evidence, as defined in ADVICE-40-004-05 of FSC-DIR-40-004.	

Code	INT-DIR-40-004_04
Requirement (s)	ADVICE-40-004-06
Publication date	07 August 2012
<p>Do all NTFP (non-timber forest product) ingredients/components of a product need to be certified?</p> <p>No. For NTFP products, it is acceptable that only one ingredient/component is FSC certified as long as clear reference to the certified ingredient/component is made on the FSC label and/or associated statements.</p>	

Code	INT-DIR-40-004_03
Requirement (s)	ADVICE-40-004-06
Publication date	07 August 2012
<p>Do NTFP (Non-timber forest product) components in a wood-based product (e.g. a rattan seat in a wooden chair) need to be certified?</p> <p>The use of a non-certified NTFP component in a wood-based product is acceptable where the components are distinguishable and the FSC label specifies wood as the certified component. Where the forest-based components are not distinguishable (e.g. a paper containing both NTFP and wood), both shall be certified in order to carry the FSC label.</p>	

Code	INT-DIR-40-004_02
Requirement (s)	ADVICE-40-004-06
Publication date	22 March 2012
<p>Does the release paper in envelopes need to be FSC certified?</p> <p>No. The envelope is the main product and needs to be FSC certified. The release paper has a secondary function and its certification is optional.</p>
